Earn 1 Graduate Level Professional Development Credit Participating in an Educational Design Live Workshop

Course Description

Live workshop/ Online Seminar: This course offers educators the opportunity to earn one credit for attendance at one Daily 5 workshop or seminar and one CAFE workshop or seminar. A research reflection paper is required for each credit. There is an option for one credit for the Daily 5 workshop OR seminar (not both), one credit for the CAFE workshop OR seminar (not both), and one credit for the Math Daily 3 online seminar.

Credit Information

Upon successful completion of an approved workshop and the accompanying requirements, Upper Iowa University will award one semester hour of graduate level professional development credit. These credits are predominantly used for professional advancement (increase on pay scale or recertification), and are not part of a degree program. It is the student's responsibility to verify approval from appropriate district or college officials before attempting to use these credits to satisfy any degree, state recertification, or school district requirements. Upper Iowa will not assume responsibility if a credit is not accepted due to the location of the university or criteria of credit acceptance. State licensing departments, school districts, and other degree programs vary regarding their criteria for credit acceptance.

Clock Hours - Many states accept regionally accredited two- or four-year college credit at the 100 (freshman) level or above to be used toward maintenance. One semester hour of college credit is the equivalent of 15 clock hours. State licensing departments and school districts vary regarding their criteria for credit acceptance. It is your responsibility to check with your individual state or district.

Course Requirements

For each credit:

1. Attend a 2 Sisters workshop or seminar.
2. Once you have completed the workshop, complete the appropriate "Getting Started" guide for your workshop. (If you attend both workshops you will need to complete both "Getting Started" guides.
