

Sum It Up!

Materials needed: 2 number cubes, crayon, game board

Players: 1 or 2

How to play:

1. Roll the number cubes and add the two numbers together.
 2. Find the sum of the two numbers on the game board and color in the circle. Then, write the addition problem on the line below.
 3. Take turns or continue to roll until the game board is full.
 4. The first person to fill his/her board wins. If playing solo, the game ends when the game board is full.
- If you roll and the sum of the two numbers is already colored in, your turn is skipped
